

SMART MOVE[®]

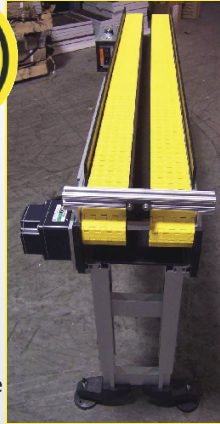

MODULAR CONVEYORS

Smart Move Conveyors custom manufactures solid surface work station conveyor systems that are safe, clean and efficient, with any combination of available configurations such as: short line, long line, multi level, weigh scale, batch counting & spacing or carousel.

- 1) Multi-Lane Modular Conveyor - Plug and Play Systems for multiple items that need to keep orientation for packaging or assembly.
- 2) Multi-Split-Lane Modular Conveyors - Facilitate stamping, bar coding or wrapping of undersides.
- 3) Parts Carrier Incline Conveyor option - Allows parts to be carried "up and over".
- 4) Pneumatic box filler system option allows for empty boxes to be transferred to a filling station, batch counted, then pushed into the line up for packaging with ease and efficiency.
