

Thank you for your interest in SmartMove Modular Conveyors!!

SmartMove Conveyors has been providing simple, safe, dependable conveyor solutions for more than 15 years. We offer a wide selection of products that are in stock and ready for immediate delivery. All of our conveyors provide the following benefits:

- **Save on installation:** All SmartMove conveyors are shipped fully assembled and will be ready for operation upon delivery. There are no hidden costs for mechanical or electrical installation. And our removable power cord meets OSHA requirements for power lock-out.
- **Provide a safe work environment:** No other conveyor can offer you the inherent safety provided with safer small torque motors. All of our drives have overload protection that shuts off the motor if stalled for more than 10 seconds. Plus, our belting provides a second safety defense by snapping open when jammed from underneath. Safe conveyors can improve your productivity by allowing workers to operate closer to the conveyor.
- **Modular and efficient:** Modularly constructed to meet current and future needs at your facility. Save on operational electrical costs with our energy efficient variable speed brushless drives that use 80% less power than other conveyors.

Requested literature detailing SmartMove short-line conveyors is provided for your immediate review. This information pack includes the following:

- ✓ [Conveyor Worksheet](#)
- ✓ [Detailed Product Description](#)
- ✓ [CAD Drawing](#)
- ✓ [Accessories Photo](#)

If you have any questions regarding any SmartMove Conveyor product, I can be reached directly at (800) 581-2876 or by email at Sales@4smartmove.com.

Long Line Conveyors

Create continuous lines up to 60' long that can carry up to 350 lbs.
Dimensions are for reference only.

Maximum Conveyor Loading Table (Belt Width Inch / Conveyor Length feet)

	20'	30'	40'	50'	60'
6"	150 lbs	Not Available	Not Available	Not Available	Not Available
9"	200 lbs	200 lbs	Not Available	Not Available	Not Available
12"	250 lbs	250 lbs	250 lbs	Not Available	Not Available
15"	300 lbs	300 lbs	300 lbs	300 lbs	Not Available
18" OR WIDER	350 lbs	350 lbs	350 lbs	350 lbs	350 lbs

Inclined conveyor lines

Unlike tensioned belts, SmartMove conveyors sections can be joined at angles up to 10 degrees with special Tilt-bracketed stands. This is especially useful when needing to change from sitting to standing heights on the same continuous belted conveyor line.

Most products can be carried up inclines as steep as 10 degrees with our standard low friction belting. For over 10 degrees, we recommend using a conveyor company that specializes in carrying packages with friction belting.

If you are unsure of how your product will perform on an incline, please send us a sample and we will be happy to test it. We will send you a short video of your product being tested.
