

Thank you for your interest in SmartMove Modular Conveyors!!

SmartMove Conveyors has been providing simple, safe, dependable conveyor solutions for more than 15 years. We offer a wide selection of products that are in stock and ready for immediate delivery. All of our conveyors provide the following benefits:

- **Save on installation:** All SmartMove conveyors are shipped fully assembled and will be ready for operation upon delivery. There are no hidden costs for mechanical or electrical installation. And our removable power cord meets OSHA requirements for power lock-out.
- **Provide a safe work environment:** No other conveyor can offer you the inherent safety provided with safer small torque motors. All of our drives have overload protection that shuts off the motor if stalled for more than 10 seconds. Plus, our belting provides a second safety defense by snapping open when jammed from underneath. Safe conveyors can improve your productivity by allowing workers to operate closer to the conveyor.
- **Modular and efficient:** Modularly constructed to meet current and future needs at your facility. Save on operational electrical costs with our energy efficient variable speed brushless drives that use 80% less power than other conveyors.

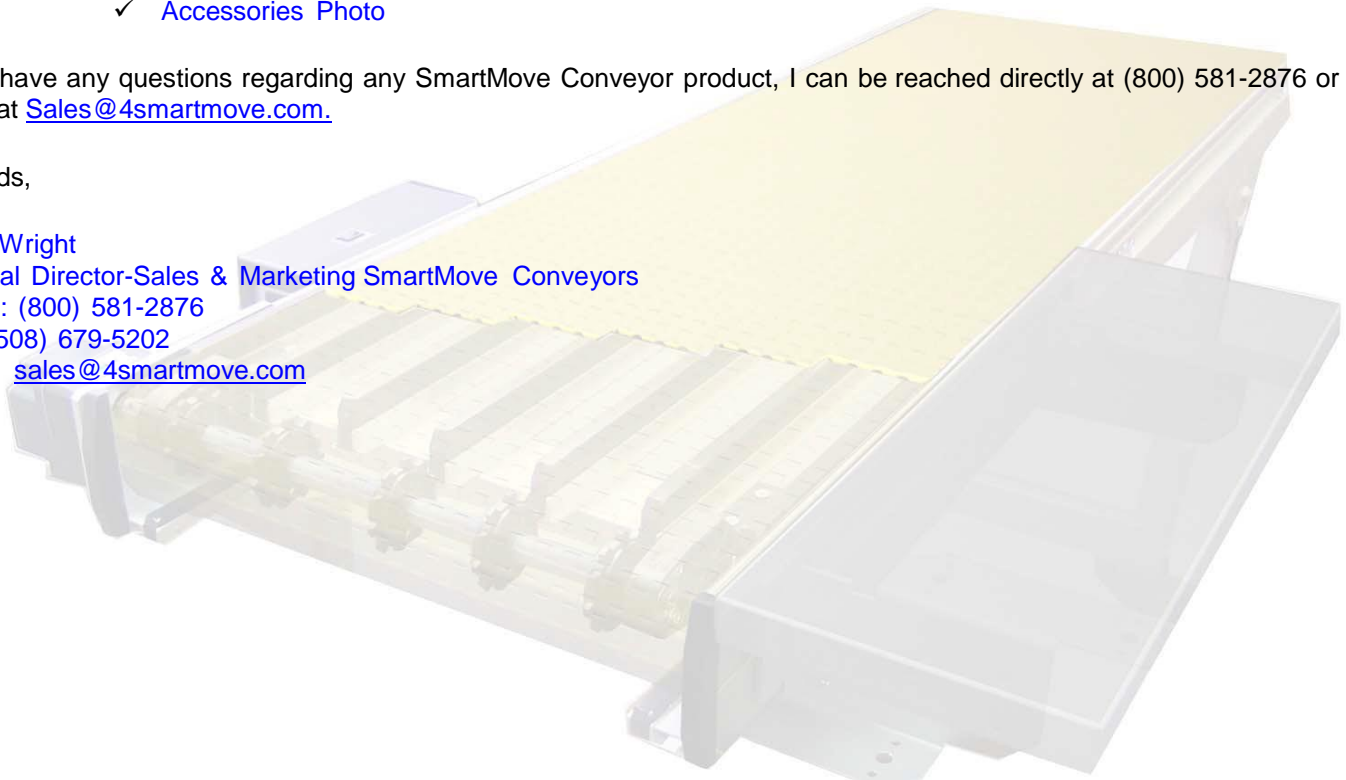

Requested literature detailing SmartMove short-line conveyors is provided for your immediate review. This information pack includes the following:

- ✓ [Conveyor Worksheet](#)
- ✓ [Detailed Product Description](#)
- ✓ [CAD Drawing](#)
- ✓ [Accessories Photo](#)

If you have any questions regarding any SmartMove Conveyor product, I can be reached directly at (800) 581-2876 or by email at Sales@4smartmove.com.

Multi-lane Systems

SmartMove®'s unique sub-mounted lane dividers and single frame assembly saves space and makes installation easy. With the ability to move product in either direction and create seamless transfers, these systems are capable of solving many material handling designs that require product accumulation, sorting and segregation. Shown in the example below is a 5 lane system with all 6" wide lanes moving in the same direction with a common drive. Our low friction belting allows products to be stopped, (By an adjustable position end-stop as shown) while allowing the belt to be continuously operated.

- x Sub-mounted lane dividers
- x Choose lane sizes from 6" to 24"
- x Multi-directions available
- x Systems up to 60' long

Shipped fully assembled with modular construction for easy installations without technicians.
